*Dimensions written as *width x length x height*.

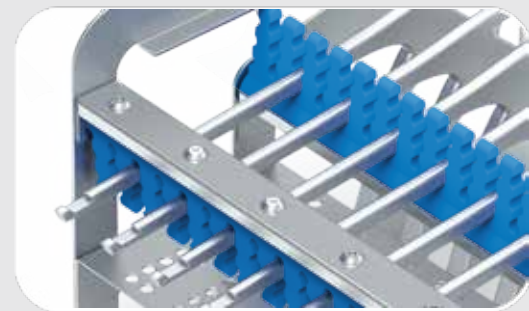

*Dimensions written as *length x width*.

Kerrison Rack / For 8 Kerrisons
PPY 843.08
 240x230x170mm
 (Suitable for 1/2 containers)

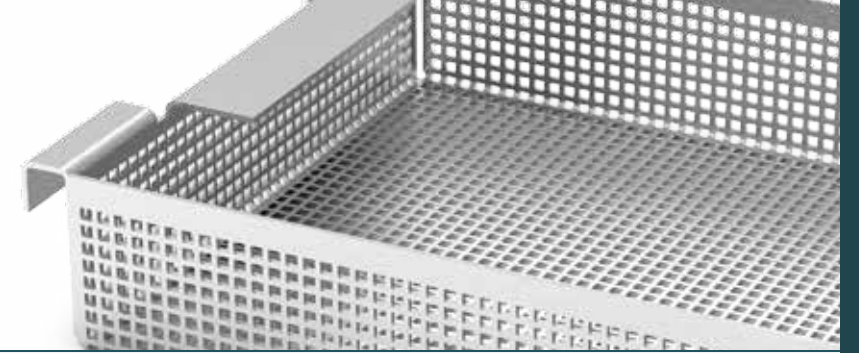

Kerrison Rack / For 17 Kerrisons
PPY 843.09
 400x245x170mm
 (Suitable for 3/4 containers)

Silicone holders arrangement of the rack allows stable fixation and safe transportation of the instruments.

*Dimensions written as length x width x height.

HANGING TRAYS

Bottom

PPY 480.20
 254x70x30mm

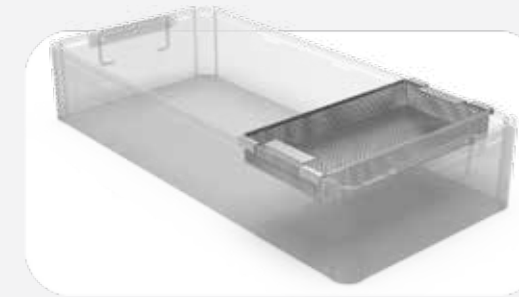

PPY 480.22
 254x120x30mm

► Suitable for mini containers.

PPY 480.24
 254x170x30mm

► Suitable for dental containers.

PPY 480.26
 254x240x30mm

Hanging trays can be use with Standard Perforated Trays, Standard Wire Baskets and Standard Hybrid Wire Baskets and can be moved desired positions. Furthermore hanging trays are suitable with of standard perforated trays.

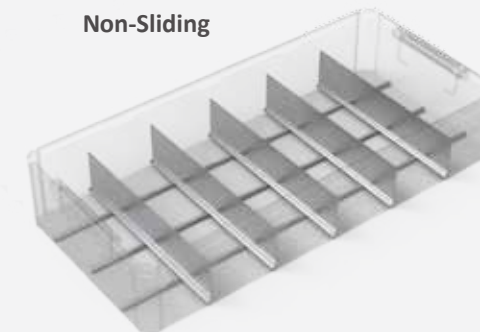

Available sizes are suitable for individual sterilization needs when they are not used with other trays.

SEPERATORS

Non-Sliding

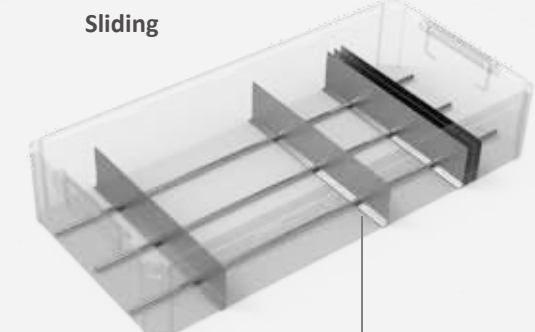

PPY 844.01
 230x240x45mm

PPY 844.02
 390x240x45mm

PPY 844.03
 470x240x45mm

PPY 844.04

Sliding

PPY 844.11
 230x240x45mm

PPY 844.12
 390x240x45mm

PPY 844.13
 470x240x45mm

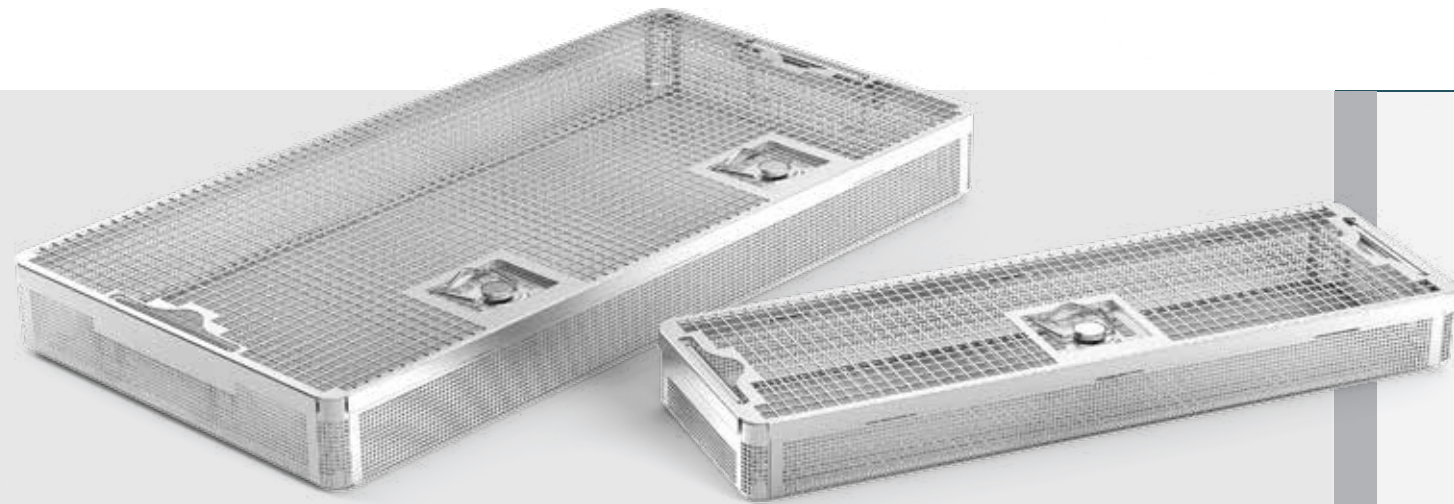

PPY 844.14
 530x240x45mm

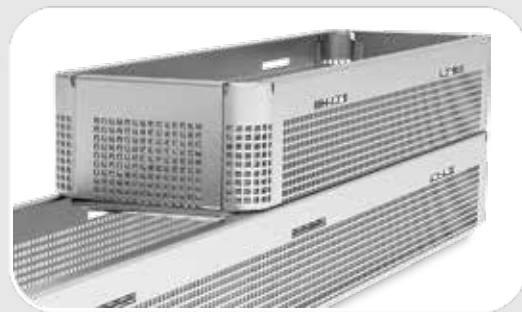

These seperators have fixed dividers at the ends and sliding dividers in the middle. Therefore users can create desired space with the help of sliding dividers.

*Dimensions written as length x width x height.

*May subject to ±5mm tolerance.

- 8x8 mm perforated bottom and lid
- 2x2 mm perforated sides

Ring system on these trays provides stackability advantage.

Thanks to the bottom ring system, it is possible to organize instrument sets with silicone holders and accessories without hassle. Furthermore it provides more rigidity in larger size trays.

Flat lid surface is achieved by sunk lock model. Tray handles on tray bottoms can be used while the lid is closed.
